The editor of the Cincinnati Commer minate Douglas. He publishes what Davidson of Louisiana, says, to refute what Taylor has said. He denies what the linquirer publishes howing the availability of Douglas. Now, we should like to know what produces the ear estness and zeal of the Commercial and othe Republican papers on this subject? If the really believe that Douglas is not an available candidate for the Democratic party, why dethey waste so much ink and paper in publish ing it? Are they so anxious that the Demo ratic party shall not muke a mistake, an ominate the least available man? What i the foundation of all this uneasiness on thi bject, in such quarters? If the Euquirer i eceiving the Democrats as to the strength Douglas, and if some Southern men are doing he same thing, why should the Commerc and other Opposition sheets spend so muc time in undeceiving, them? Why not let the Democratic parly be deceived, nominato weak candidate, and be beaten, for the glory of God and the good of Black Republicanism Do they really wish to save the Democrati party from a fatal mistake? We can understand why Bigler, Bright

Fileh, tireen & Co., try to prove Donglas una vailable. We can understand why they wil se all schemes and contrivances to accomplis s rejection. His nomination would be the deteat; and they greatly prefer the defeat he party to that result. If they must fall acy would pull the party down with them. Il s blind who does not see that this is the spirit North and South.

But we can't see how these Colored Repub cans should join this opposition to the none nation of Douglas, if they really thought his navailable. The plain truth is obvious lo all who rec

They foresee that nearly a the free States will be in danger. They can count Massachusetts and Vermont, and cau name another without serious apprehension From one end of the North to the other, th' error of Douglas is manifest in the Opposition papers. They scarcely notice the other dis nguished Democrats named for the Presi ency. They hate Douglas with an intensil and a ferocity unmatched by anything but the hate of a fire eater They pick up with greedi ness whatever is said against him in the South and feel relieved when they can see any symp toms that the South will not vole for him They exaggerate what they call the slave por er, and feel happy in the hope that it will kil Douglas.

None can misnaderstand the motive of a this labor and zeal. We should have uone of t, if the popular strength of Douglas were not seen and felt.

These Oppositionists North had better n ely on scraps of information from the South We are aware that there are prominent Deme erats North who hate Douglas. There ar many South of the same party, who will no support him. They, too, hate him. We know hat some of these will leave no stone unturne to accomplish his defeat at Charlestou. Wha hey will accomplish by it, it is not easy to see Douglas can afford to decline the nominal for l'resident. We don't see why ambitio should prompt him to step down from the pos tion of the Senator of the United States to the of l'resident. lle would lose none of his powe by refusing the Presidency. Indeed, he has said what no one else cau afford to say-tha if he disapproves the platform, he will not ac cept a nomination. They can, therefore, get rid of Douglas by adopting at Charlesto Bright's platform. By the same process, they can hand over the Federal Government to th

Whilst the politicians North and South whose sentiments consist of hatred to Donglas. would not hesitate to do this, and some o them, perhaps, desire it, the Democratic people of the South have no part nor lot in this tust

Bright is said to have asserted in caus that Senators were the proper persons to lefine the position of the party; that it was fore appropriate that they should do it, than that it should be left to a Convention. When men, untit to be Senators appen, nevertheless, to occupy such position or a long time, they have some right, from experience, to entertain an indifferent opinion of the people. o-day-Ash Wednesday. Lent is an old Sax

on word, signifying the Spring, and is applied o designate the Spring fast. Bishop Hobart N(), 423 MAIN STREET says that "this fast, like other Christian ob ervances, is of Jewish origin." The humiliaion of the Jews extended over a period of orty days, before the yearly expintion; that | WE ARE NOW RECEIVING DAILY ADDITIO of Christians is forty days before the expiation of the sins of the whole world, by the death of Christ. In the early ages of Christianity it was customary to set apart some time for mortification and self-denial, to prepare for the Easter festival. The custom of appropriating the number frty as days of earth forty days. The children of Israel were in the wilderness forty years. Moses fasted on the mount, and Elijah in the wilderness, the same number of days. The Savior fasted in the wilderness for forty days. The primitive Christians observed the season with great strictness. No marriages were allowed, snd hree o'clock in the afternoon. The term Ash Wednesday, which is the beginning of Lent, is lerived from the custom of the primitive Christians, expressing their sorrow by wearing the coarsest sackcloth, and casting ashes and earth upon their heads, to "put themselves in mind of their mortality, which would soon reduce them to dust and ashes."

THEATER .- The Florences are tendered to night a complimentary benefit by the citizens of Louisville. Nothing that we can say will add to the crowd which will be in attendance tonight, but it is due to the beneficiaries to state hat their engagement has been the very best of the season; that their audiences, though ever so large, have been universally delighted and that in parting with them we cannot do less than repay, in part at least, the pleasure they have bestowed upon us. The box-sheet s already full, but no doubt if to night will not hereafter be referred to as the great benefit of the Louisville Theater.

We are continually hearing of men pending their lives in the pursu't of perpetual motion. It seems impossible to drill into them the first conception of mechanical prin ciples. A person in Cinciunati, so it is said. after forty years of steady labor and the ex penditure of a large capital, believes he has succeeded in planning a piece of mechanism that will serve not only as perpetual motion, but allow of its application to all sorts of machinery. He might employ his money and time to better advantage.

THE FACE, ROUGHNESS OF THE SKIN. &c.

The IRON being absorbed by the blood, and thus eirculating through the whole system, no part of the body can escape their truly wonderful influence. The experience of thousands daily proves that ne prepara jou of iron can for a moment be compared wit: it. Impurities of the blood, depression of vital stergy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. In all cases of female debility (fluor albus, chlorosis, dc.) its effects are delightfully resovating. No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy and fully resorative effects. Good apposite, complete digression, rapid acquisition of trength, with an unusual dispendition for active and cheerful exercise, immediately follow its use. As a grand stomachic and general restorative it has no superior and no substitute.
